THE BEST WAY TO LEARN IS ONE-ON-ONE!

IN-HOME PRIVATE TUTOR FOR ELEMENTARY & SECONDARY STUDENTS

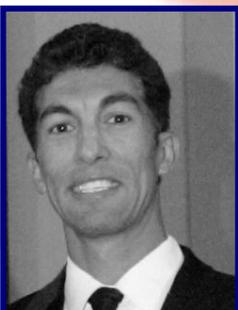

Why do families & students enjoy learning with me?

I strongly believe **quality tutoring** should be accessible for students who want and need to excel academically. Every student needs a tutor who is **passionate about teaching**, who can improve academic skills, increase effort and self confidence and become an educational partner. By working one-on-one with your child, I am able to customize lessons and concepts and teach according to the individual learning style of every student.

I offer **private, in-home tutoring** for students in the elementary through high school grades. I teach most academic subjects, standardized test preparation, as well as coach sports skills and valuable health programs. I can tutor from your child's school curriculum, utilizing their textbooks, worksheets, and project assignments. Or I can develop an individual program that fits your child's needs.

Qualified, Experienced, Enthusiastic!

- **Honor Student at Loyola Marymount and CSU Dominguez Hills**

- **Credentialed Teacher with Over 14 Years Experience in Local Districts**
- **Coached After-School Sports Teams**

- **Mathematics**
- **Science**
- **Reading & Writing**
- **Test Preparation**
- **Life Skills**
- **Sports & Health**
- **Outdoor Education**

To the Concerned Parent,

Do you have a student in need of personal one-on-one tutoring in Math, Writing or Test Preparation?

Are you frustrated that your child is not performing as well in school this year and you don't understand why?

Does he or she do well on homework but then makes silly mistakes on the test?

Is he or she disorganized and forgets to turn in assignments?

Is your child losing his or her motivation due to lack of confidence and poor performance?

I am here to help!
